## FINANCIAL YEAR 2011

## QUARTER JULY-SEPTEMBER 2011

- 2.1\% rise in revenues to 6.79 billion euros
- Operating costs excluding fuel bill under control
- Operating result of 397 million euros

## HALF YEAR APRIL-SEPTEMBER 2011

- $5.2 \%$ rise in revenues to 13.0 billion euros
- Operating result of 252 million euros

The Board of Directors of Air France-KLM, chaired by Jean-Cyril Spinetta, met on $9^{\text {th }}$ November 2011 to examine the accounts for the half-year April-September 2011.

Jean-Cyril Spinetta made the following comment: "Despite the many measures pursued over the last three years, our insufficient profitability in recent quarters, in an economic environment affected by the weak global demand and high oil prices, shows that we need to go further. This context requires the new management to focus on three priorities. The first is the re-establishment of the Group's competitiveness, implying additional cost savings. The second is the restructuring of our short and medium-haul activity. The third is a rapid reduction in our debt. An action plan for these priorities will be presented during the first quarter of 2012. I am confident that both Air France and KLM will be able to deliver an effective response to these new challenges."

## Quarter July-September 2011

## Activity: Robust traffic, but insufficient unit revenues to offset higher fuel bill

Traffic was dynamic in the passenger activity but began to erode in cargo. Moreover, the level of unit revenues was insufficient to offset the rise in the fuel bill.

[^0]Free translation into English for convenience only - French version prevails
Website: www.airfranceklm-finance.com

Passenger traffic rose $7.9 \%$ for capacity up by $6.3 \%$. The load factor gained 1.3 points to $86.1 \%$. Unit revenue per available seat kilometre, (RASK) declined by $3.2 \%$ ( $-0.6 \%$ ex-currency). Revenues rose $2.9 \%$ to 5.28 billion euros, limited by a $2.6 \%$ negative currency impact. The operating result of the passenger business amounted to 356 million euros ( 453 million euros at $30^{\text {th }}$ September 2010). The negative impact of the crises is estimated at 45 million euros.

The cargo business recorded traffic down $2.1 \%$ for capacity up 1.5\%, leading to a 2.3 point decline in load factor to $63.7 \%$. Unit revenue per available ton kilometre (RATK) declined $2.8 \%$, but rose by $2.4 \%$ excurrency. Revenues stood at 773 million euros ( $-1.7 \%$ ). The operating result stood at -37 million euros ( 7 million euros at $30^{\text {th }}$ September 2010).

Total revenues for the group amounted to 6.79 billion euros versus 6.65 billion euros at $30^{\text {th }}$ September 2010, up $2.1 \%$, despite a negative currency impact of $2.8 \%$.

## Results: operating result of 397 million euros

Operating costs rose $5.3 \%$ and $2.3 \%$ ex-fuel. In equivalent available seat kilometres (EASK), unit costs were up $0.8 \%$ but down $1.9 \%$ on a constant currency and fuel price basis, for production measured in EASK up by $4.9 \%$. The 'Challenge 12 ' cost saving plan generated 106 million euros in savings.

The main changes in operating costs related to fuel and currency hedging. The fuel bill increased by $14.2 \%$, or 214 million euros, under the combined effect of $4 \%$ increase in volume, a favourable currency effect of $12 \%$ and a rise in the fuel price after hedging of $24 \%$. Currency hedges, included in the item 'Other income and expenses' went from a profit of 52 million euros at $30^{\text {th }}$ September 2010 to a loss of 5 million euros. Employee costs rose $2.0 \%$ to 1.86 billion euros.

The operating result stood at 397 million euros ( 576 million euros a year ago). The adjusted operating result stood at 468 million euros, implying a margin of $6.9 \%$.

Net interest costs were stable at 95 million euros ( 93 million euros at $30^{\text {th }}$ September 2010). Other financial income and costs stood at -268 million euros ( 41 million euros at $30^{\text {th }}$ September 2010) including a currency result of -125 million euros and a decline in the fair value of hedging instruments of 145 million euros. As a result, the net result stood at 14 million euros ( 290 million euros at $30^{\text {th }}$ September 2010). The net result restated for non-recurring and non-cash derivative items stood at 117 million euros ( 366 million euros at $30^{\text {th }}$ September 2010).

Per share, both the net and diluted net result stood at 0.05 euros against 0.98 and 0.81 respectively at $30^{\text {th }}$ September 2010.

## Six Months April-September 2011

The result at $30^{\text {th }}$ September 2011 was impacted by the crises affecting several important networks for the group. The operating loss relating to these events is estimated at 130 million euros.

The passenger business saw traffic and capacity up by $8.6 \%$ and $8.1 \%$ respectively. The load factor gained 0.4 points to $83.7 \%$. Unit revenue per available seat kilometre (RASK) fell by $1.8 \%$ but was stable on a constant currency basis; the decline was also due to the deployment of more densified aircraft, leading to an automatic dilution of unit revenues, offset by the improvement in unit costs.

In cargo, traffic was stable ( $-0.1 \%$ ) for capacity up $3.8 \%$, leading to a 2.5 point decline in load factor to $65.2 \%$. Unit revenue per available tonne kilometre, (RATK) dropped $2.7 \%$ (+1.6\% ex-currency).

Total revenues stood at 13.01 billion euros, up $5.2 \%$ despite a negative currency impact of $2.0 \%$. Operating costs rose $7.0 \%$ and $4.3 \%$ ex-fuel. The 'Challenge 12' cost saving plan generated 235 million euros in savings. Aside from the increase in the fuel bill (+15.1\%), currency hedges, accounted under the item 'Other income and expenses' went from a profit of 113 million euros at $30^{\text {th }}$ September 2010 to a loss of 17 million euros at $30^{\text {th }}$ September 2011.

The operating result stood at 252 million euros (444 million euros at $30^{\text {th }}$ September 2010) and the adjusted operating result at 395 million euros, implying a margin of $3.0 \%$.

Net result, group share, stood at -183 million euros ( 1.03 billion euros at $30^{\text {th }}$ September 2010 after 1.03 billion euros in capital gains on Amadeus). The net result restated ${ }^{1}$ for non-recurring and non-cash derivative items amounted to -94 million euros ( +104 million euros at $30^{\text {th }}$ September 2010).

Per share, both the net and diluted net result stood at -0.62 euros against 3.48 euros and 2.81 euros respectively at $30^{\text {th }}$ September 2010.

## A high level of liquidity

Investments net of disposals came to 743 million euros at $30^{\text {th }}$ September 2011 ( 696 million euros at $30^{\text {th }}$ September 2010). Operating cash flow stood at 263 million euros. Shareholders' funds stood at 6.23 billion euros. Net debt amounted to 6.50 billion euros ( 5.89 billion euros at $31^{\text {st }}$ March 2011). The gearing ratio ${ }^{2}$ stood at 1.04 , and was also 1.04 excluding derivative instruments ( 0.85 and 0.90 respectively at $31^{\text {st }}$ March 2011).

At September $30^{\text {th }}, 2011$, the Group benefited from a high level of liquidity with cash of 3.4 billion euros and available credit facilities of 1.85 billion euros.

## Outlook for 2011

The current economic climate continues to impact international trade as well as business confidence, leading to volatility in both traffic and revenues. As early as July the group took the decision to reduce planned Winter 2011 long-haul capacity growth from $5 \%$ to $3 \%$. However, this difficult environment is being exacerbated by volatile currency movements and a high fuel price. In these conditions, the group anticipates a negative operating result for the quarter October-December 2011 and, consequently, for the calendar year $2011^{3}$ (as a reminder, the current financial year comprises the nine month period from April to December 2011 and will generate a positive operating result).

## Maintenance

Maintenance generated third party revenues of 272 million euros for the quarter July-September 2011 versus 288 million euros at $30^{\text {th }}$ September 2010. This $5.6 \%$ decline was mainly attributable to a negative currency effect of $8 \%$, since a large part of revenues are invoiced in US dollars. The operating result stood at 18 million euros ( 61 million euros at $30^{\text {th }}$ September 2010). Over six months revenues amounted to 534 million euros versus 532 million euros a year earlier, also affected by an $7 \%$ negative currency impact. The operating result stood at 41 million euros after 23 million euros in exceptional costs linked to a strike at line maintenance ( 81 million euros at $30^{\text {th }}$ September 2010). The engines and components business continued to perform well.

## Other businesses

Other activities comprise mainly the leisure and the catering business. In the July to September quarter total revenues for these businesses amounted to 468 million euros ( 450 million euros at $30^{\text {th }}$ September 2010). The operating result stood at 60 million euros ( 55 million euros at $30^{\text {th }}$ September 2010).

For the half year, revenues stood at 825 million euros ( 785 million euros a year earlier) and the operating result at 46 million euros ( 34 million euros a year earlier).

The leisure business includes Transavia and the leisure activity of Martinair. The latter is continuing to shrink this business, as KLM progressively assumes its capacities. For the quarter July to September this business generated revenues of 357 million euros ( $+2.7 \%$ ) and an operating result of 52 million euros ( 43 million euros a year earlier). Over six months, revenues rose $3.9 \%$ to 612 million euros while the operating result rose from 23 million euros at $30^{\text {th }}$ September 2010 to 40 million euros at $30^{\text {th }}$ September 2011.

Catering saw third party revenues of 95 million euros (+0.8\%) and an operating result of 10.5 million euros down $6.5 \%$ for the July to September quarter. Over six months third party revenues stood at 179 million euros ( $+11 \%$ ) while the operating result rose from 8.4 millions euros to 13 million euros ( $+54.8 \%$ ).

## Additional information

The statutory auditors have completed their limited review of the interim consolidated financial statements and the limited review report will be published on finalisation of the procedures required for the publication of the first half financial report.

The results presentation will be available on line at www.airfranceklm-finance.com on November $10^{\text {th }}$ 2011at 8h00 CET.

## Practical information

An Analysts' Meeting will be held on November $10^{\text {th }} 2011$ at 10 h 00 CET in Pavillon Gabriel, 5, avenue Gabriel, 75008 Paris.

- A live broadcast of the Analysts' Meeting will also be available on the website: www.airfranceklm-finance.com (password: AKHH1)
- A recording of the meeting will be available on the website in the afternoon.
